Office Order

Sub: Provision of Smart TV and Knowledge Content Pendrive to Community Halls in Project Villages

In line with the objectives of the MegLIFE Project to enhance community awareness, promote inclusive learning, and strengthen social cohesion across our project villages, the SPMU of MegLIFE has approved the provision of Smart TVs along with pendrives containing curated knowledge content to all project villages that have Community Halls constructed under the project.

The Smart TVs will serve as a medium for constructive entertainment, cultural programs, and motivational videos, fostering a positive and cohesive environment within the villages.

In addition to the Smart TVs, a 64 GB pendrive will also be procured for each village. The Knowledge Management team at SPMU will create a Google Drive containing structured educational materials that support skill development, life skills training, digital literacy, and other relevant learning and entertaining modules for village communities and children.

The BPMs shall download the content from the drive, upload it to the pendrive, and provide this to the villages for displaying the content during awareness campaigns and for viewing important informational content collectively.

A list of 194 project villages where the electrification of Community Halls has been completed is enclosed herewith at Annexure- A, where the TV installation has been sanctioned.

A total of Rs. 20,000 (twenty thousand rupees only) has been sanctioned per village for the procurement of a 43-inch Smart TV (approx. Rs. 18,000/-), a 64 GB pendrive (approx. Rs. 500/-), and the installation of a TV guard (approx. Rs. 1,500/-) to protect the Smart TV from theft.

The design of the TV guard is enclosed at Annexure-B.

All DPMs are hereby directed to ensure the installation of the Smart TVs and report to SPMU. DPMs shall also monitor and take feedback on community usage during the monthly reviews.

The KM Vertical Head at SPMU is directed to upload all relevant content to the Google Drive and sharing the link with the BPMs for necessary action.
